

Access to Liaison – Pesticide Information

The Red Tractor Fresh Produce team working with Fera have provided tailored access to the LIAISON database for all Red Tractor Fresh Produce members.

This system allows individual growers access to all information for plant protection products approved for use under the Red Tractor Fresh Produce Scheme.

Searches will be filtered specifically for the crops for which you are registered. Once you have logged onto the site and clicked on the LIAISON hyperlink you will be directed to the LIAISON home screen.

You will need a username and password to access Liaison and these will be sent once you have registered:
