

Update on Changes to Beef and Lamb Standards

Red Tractor Assurance

In June 2018, Red Tractor requirements regarding antibiotic usage on farm are changing.

We are running four vet meetings around the country to update vets in these changes.

Booking is essential.

21st May, Penrith. Book [here](#).

22nd May, Thirsk. Book [here](#).

24th May, Ledbury. Book [here](#).

7th June, Exeter. Book [here](#).

We have prepared specific guidelines for vets to ensure they are up to speed with the changes.

This document can be found [here](#).

In addition, we have prepared a presentation for vet practices to use for either internal use or for when engaging with farmers, detailing current and new standards regarding AMR use. This can be found [here](#).
