

# Red Tractor version 1 standard changes document

## Ducks

The following document outlines all interim changes which have been made to the version 1 Ducks standards since October 2017. Further guidance and document templates can be found on the Red Tractor website.

### October 2019

The following changes, implemented in October 2019, affects all **duck** members.

**HF.j** – the requirement for electrical installations to be tested once every five years has been removed

**AM.b.1** – the requirement for proportioners to be calibrated according to manufacturer's instructions has been removed
