Site name _____

Stores / Bins at this site_____

Carry over from previous harvest (Estimate). _____(tonnes)

Estimated tonnage on site post-harvest (Estimate) _____(tonnes)

Estimated tonnage stored (Estimate) _____(tonnes) figure to be completed at end of harvest.

Date	Start Mass Balance (tonnes)	Amount loaded out (tonnes)	New Mass balance (tonnes)

- The estimated total quantity of grain/oilseed stored, per site, is recorded immediately post-harvest
- Records are kept for quantities of grain/oilseed which leave the site (e.g. grain passports)
- Carry over between harvest years is recorded
- Reconciliation of amounts stored vs. out loading records is available per harvest year
